## ARCA STYLE QUICK RELEASE MOUNTING SYSTEM

### Mounting Conversion Plate to Manfrotto MHXPRO-3W

1

Remove Level Screw with T20 Torx Wrench (provided).

2

Remove Level and Safety stop mechanism.

3

Remove Pin from safety mechanism and save it. You will need it later in step 6.

4

Place adapter plate at top of Manfrotto head.

5

Attached adapter plate with flat head 1/4-20 x 7/8 screw using opening in a Manfrotto head where level screw was located.

6

Place pin removed in step 3 in original position. We you will use it as second holding point.

7

Attach button screw. Screw will rest on the pin.

8

Rotate head to its original working orientation and attached arca clamp. Clamp can be mount in 4 different orientation.

9

You are now complete and can begin to use your equipment.
